Hiring Committee

eMobilis Mobile Technology Institute

Nairobi, Kenya

Re: Application for UI/UX Design Instructor Position

Dear Hiring Committee,

I am excited to apply for the **UI/UX Design Instructor** position at eMobilis Mobile Technology Institute. As a proud graduate of eMobilis and currently serving as a **UI/UX Designer (Remote)**, I am eager to bring my industry expertise and teaching background to inspire the next generation of UI/UX designers.

In addition to my professional design experience, I hold a **Bachelor of Education degree in Mathematics and Computer Science**, which has equipped me with strong teaching, mentoring, and communication skills. This educational foundation allows me to approach instruction not only from a technical and creative perspective but also with a structured, learner-focused methodology.

Over the past several years, I have built a strong portfolio of work that includes **user research, wireframing, prototyping, usability testing, and design system development**, with proficiency in **Figma, Adobe XD, and other design tools**. In my current role, I lead UI/UX strategy, collaborate with developers, and mentor junior designers, ensuring consistency and excellence across products.

What excites me most about this opportunity is the chance to give back to the institution that helped launch my career. I am passionate about empowering learners to not only master design tools but also build **creative confidence, critical thinking, and problem-solving skills** that will set them apart in the industry.

I would be honored to contribute to eMobilis's mission of empowering individuals to **learn, innovate, and earn**, and I am confident that my **blend of teaching background, industry expertise, and passion for mentorship** aligns perfectly with this role.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience can add value to your team.

Sincerely,

Charles Ndivo Mwau
